Presenting Issue/Aim	Action	Cost	Projected Impact
To provide increased academic support for Service Pupils so any barriers are removed and they achieve their potential	Ensure that each Service Pupil's achievement is individually tracked so that school identifies any that are in danger of underachieving.	No cost to the strategy - costs met by school	All Service Pupils make at least expected progress across the academic year, with a significant proportion making better than expected progress in all core subjects.
To provide Service families with a comprehensive bank of information via the school's website to support transition into and from school and to fully explain the school's offer/provision for Service Pupils	Create a separate section on the school's website for Service families, containing: <ul style="list-style-type: none"> • A short film about the school • Our 'offer' for Service Pupils • Information about starting school • Information about leaving school • Signposting to other services outside school • Who to contact – which member of staff is our 'Service Pupil Champion' 	15 hours of administrative time at £220 to update website 5 hours of TA time £60 across the year	Service families are fully aware of the provision available to them both within and outside school
To ensure that the school's systems for integrating pupils that arrive at the school and those that will be leaving are robust and are fit for purpose so as to provide as smooth a transition as possible	Review and update the school's procedures, entitled 'Checklist for New Arrivals' and 'Checklist for Children Leaving' to ensure that they meet our current needs and are used every time a pupil arrives and leaves the school.	3 hours of TA time £40 to update and share procedures 1 hour of TA time per month £120 per year	All new arrivals settle quickly, making a strong circle of friends. Pupils who leave the school are dealt with sensitively and understandingly and transition to the new school is smooth.
