

Synergy Schools Federation – Context Plan for Mixed Age Classes

History and Geography unit planning is undertaken on a 3-year rolling plan for Key Stage 1 – which also includes the utilization of this stimulus for the teaching of Reception pupils. For all other subjects, a 2-year rolling programme is taught (which only includes Year 1 and Year 2 pupils). This doesn't include Reception pupils, who are taught separately using EYFS practice and principles. For Key Stage 2, a 4 year rolling plan is in place for all subjects. Please note that only the unit title is provided for simplicity. For further details about the content of each unit, please refer to the 'scheme of learning' for each curriculum subject, available on the subject page on the website.

For computing and science, a 2 year rolling programme is used during Key Stage 2. This means that Y3/4 pupils are taught different content to Y5/6 pupils as well as at a different level. This is repeated twice to marry in with the 4 year programme for the rest of the curriculum as shown above.
